Common Sense

About City Directory Circulation

The true value of advertising circulation is *circulation consulted.*

To be exact by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

To be conservative we will eliminate the sixty Sundays and Holidays when no tests were made.

For every thousand directories sold there will be an average of three and one-half daily consultations for each book for *three hundred and five days,* therefore—

1000 x 3½ x 305 =

1,067,500

Consultations or

Circulation Consulted

"What You Should Know About Your City"

"The helpful kind of patriotism is the kind that grows out of a knowledge of one's town, of her growth, her people, her property, her government and her needs. This knowledge develops first, an intelligent interest; then, a sympathy; then, a reasonable affection, a wise and temperate jealousy for her good name and a wish that she may prosper and grow more beautiful; and finally, a desire to help her to become greater and finer, a bright and clean workshop and a home for the best of men and women."—John Cotton Dana.

Springfield, Mass.

Trade (Retail).
Serves 700,000 people within a radius of twenty miles. Jobbing territory serves 1,000,000 people within a radius of 50 miles.

Trade.
Volume of Retail business (1930 census) $109,054,926. Volume of Wholesale business (1930 census) $166,117,561.

Principal Products.
Envelopes, valves, sporting and athletic goods, toys and games, fiberloid products, carpets and rugs, guns and pistols, stationery, motorcycles, radios.

Newspapers.
Four.

Hotels.
Seventeen with 2,143 rooms. Newest built in 1929.

Railroads.

Boston & Albany, Boston & Maine, New York, New Haven and Hartford.

Amusements.

Fourteen theatres. Seating capacity 17,589. Largest seats 4,000.

Hospitals.

Five. Also Shriners Hospital, with 961 beds and 132 bassinet beds.

Educational.

Colleges: International Y.M.C.A. Assn. College, American International College, Bay Path Institute, MacDuffie School for Girls, Inc. Schools: 31 elementary, 3 elementary and Junior High, 5 Junior High, 3 Senior High, 1 Junior College, 1 Trade School, 1 Continuation School and 11 parochial schools. Number of pupils in public schools 28,902. Total number of teachers, principals and supervisors 1,020. Value of public school property $12,511,930.

Public Libraries.

Five, containing nearly 400,000 volumes.

City Statistics.

Total public street mileage 225.351 with 188 miles paved. Miles of gas mains 470. Sewers 225.967. Miles of street railway trackage 118.72. Miles of bus lines 126.95. Capacity of municipal water works 4,000,000 gallons, a daily average pump of 30,000,000 gallons, and with 307 miles of mains. Value of plant estimated at $15,000,000.00. Fire department consists of 362 men, 9 autos and 48 pieces of motorized apparatus in 16 station houses. Police department consists of 316 men, 40 pieces of motor equipment and 2 stations.

THE CITY TODAY

Springfield, Massachusetts was settled in 1636, as a result of the efforts of William Pynchon and a band of faithful followers who sought the fertile valleys in this part of the country, for homesteading purposes. It was made a town May 14, 1636, O.S., and incorporated a city May 25, 1852.

The city has grown to a community having a population of 149,900. Springfield is 99 miles from Boston; 103 miles from Albany, New York, and 135 miles from New York City. Immediately surrounding Springfield are numerous smaller towns and cities, including among the first, West Springfield, Longmeadow, East Longmeadow, Wilbraham and Ludlow, and among the latter, Chicopee.

Springfield has, since the last part of the eighteenth century, been continuously developing as a manufacturing center, although surrounded by communities agricultural in character. The industry of the community is of varied quality. The skill of workmen to be found here has developed the popularity of the community as an industrial section for the manufacture of many varied products. For the most part, raw materials and supplies are transported to the city. The location of the city nearly equidistant from the three large centers—Boston, Albany and New York—is an enviable one.

The rolling hills rising from the Connecticut River Valley provide for excellent residential sections.

The prevailing meteorological conditions gives to Springfield typically New England seasons with charming summers and cold winters with some snow.

SERVICE INSTITUTIONS

Springfield is fortunate in having a group of public utility organizations which aid, and have for many years, in the development of the community. Under the municipality, there operates a Springfield Water Works the activities of which provide the community with excellent drinking water, piped to the city from the eastern foot-hills of the Berkshires. An excellent reservoir system practically double a previous capacity, now has been completed and will provide a maximum flow to adequately care for the city for many years to come.

The Springfield Gas Light Company produces water gas in quantities at $1.10 per 1,000 cubic feet to households. Industry is also served at varying rates. A net work of the piping of this corporation covers nearly the whole city, and is being rapidly extended.

The United Electric Light Company provides light and power on a combined flat rate and low energy charge.

Transportation facilities provided by the Springfield Street Railway Company afford excellent local and interurban transportation service. The rehabilitation of the rolling stock of this company and much of the roadbed has been completed, and the newest type of trolleys and busses are available for use.

Springfield has long been recognized as a community in which the educational facilities are of an unusually high standard. The public school's program is most complete and leads the pupil through the primary grades and junior high schools into one of four high schools of excellent standing and character. In the first—the Central High School—the curriculum is of an essentially academic character, providing for the continuance of education in the academic colleges and universities. The second—the Technical High School—is fundamentally an engineering school and offers courses leading directly to industrial work or into the higher engineering colleges. The third—the High School of Commerce—prepares the pupil thoroughly for a business career and also for entering into a limited group of colleges. The fourth—the Springfield Trade School prepares the pupil for industrial employment.

Freight rates prevail for the shipment of raw materials and finished products into and from the city on a basis which permits our manufacturers to compete with others in similar lines in other parts of the country.

Springfield has 43,894 homes, providing accommodations for about 42,000 families. Springfield has long been known as a community of home lovers. The environment which has been created is a result of a mixed population, possessing many natural advantages and proving pleasing to all. There are many community civic organizations, each of which was definitely formed for the improvement of its part of the city.

CONSUMING POWER

That 50,000 full car loads of freight were left in Springfield in 1931 will give some idea of the consuming power of the city of Springfield. To this must be added the many truck loads of goods that come over the road. Farm products valued at over $25,000,000. were raised in the Springfield area in 1931 and consumed mostly in this area. Over $37,000,000 worth of raw material was used in our factories in 1930. New England, of which Springfield is a part, is forced to import from outside all basic raw materials even to lumber and depends on its skilled labor and native ingenuity in fabrication to maintain its industrial supremacy. The normal consummation of a population of 149,900 is augmented by at least 100,000 to include traveling men, attendants at conventions, schools, etc.

INDUSTRIAL SITUATION

The latest available statistics in Springfield show 316 establishments making as many different lines, using raw material valued at $37,429,231, paying wages of $20,256,910, employing over 15,000 people and producing $93,267,379, worth of products. Many of these factories manufacture products known the world over and spread the fame of Springfield into all countries. Westinghouse Motors and Bosch Radios, Rolls Royce automobiles, Indian Motocycles, Smith & Wesson revolvers, Springfield rifle, Absorbine Junior liniment, Fiberloid products, and Milton Bradley games and toys are typical examples. Industry in Springfield is highly diversified though the manufacture of electrical goods and equipment slightly predominates in value all other lines. Skilled artisans can usually find steady employment in Springfield due to this condition.

Springfield is justly proud of its title, "The City of Homes," and well deserves it as there is a home for approximately every five people of population, and of those occupied nearly 30% are owned by the occupant. A recent survey showed that of 43,897 dwellings only 327 were classified as untenantable and the majority of these would normally rent for $20 a month or less. This condition is maintained partly by the fact that due to diversity of industry the labor demand is steady. Abundance of water power in the valley has caused erection of enormous hydro-electric stations with the result that reasonable electrical rates prevail and practically all homes enjoy the use of electricity with all its advantages.

FINANCIAL SITUATION

Though having one of the lowest municipal tax rates in Massachusetts, Springfield has been continuously developing without unduly burdening the public and has outstanding bonded indebtedness of but $18,455,000.00 most of which was incurred for the erection of the Memorial bridge and the installation of one of the finest water supply systems to be found anywhere. Economy is the rule of Springfield's administration though large appropriations for permanent improvements are made yearly to keep pace with the schedule of the City Planning Board. Springfield has five commercial banks and trust companies and three savings banks. The total resources of Springfield banks are over $212,349,675. with yearly clearings of $225,083,800. Due to its being so accessibly located, Springfield was chosen as the logical location for the establishment in New England of the district branch of The Federal Farm Loan System.

RETAIL TRADE

While Springfield has a population of but 149,900 people, its retailers serve a territory containing 625,000 population and its largest department store has the distinction of having a larger per capita sale than any other in the country. The three main department stores of Springfield do an annual business in excess of $15,000,000. The large proportion of merchandise carried in Springfield is of a quality nature as there are no great number of the so-called poorer class in Springfield. Seventy-three per cent. of its inhabitants are native born.

WHOLESALE TRADE

Springfield is served north, east, south and west by trunk line railroads and it has consequently become a well-known jobbing center. Stocks carried in Springfield cover practically every well-known product manufactured in the United States applicable to the northern climate and are distributed over a radius of more than 50 miles.

CIVICS AND WELFARE

Of outstanding value is the work done by the City Planning Board, through whose efforts a definite arrangement for the control of the future growth and development of the city is projected and maintained.

Hospital facilities are more than complete, for the community is fortunate in possessing four hospitals caring for general cases, two hospitals maintained particularly for the care of maternity cases; and one hospital for diseases requiring isolation, which has this year been moved into an excellent new building erected by the city at a total cost of approximately $750,000. Beautifully modern, the new wing of the Springfield Hospital, erected at a cost of $2,500,000, was opened late in 1931. Springfield is fortunate also in being the home of the Shriner's Hospital for Crippled Children for the whole New England area. Medical and surgical treatment may be had from many physicians and surgeons of repute.

Health and sanitation are carefully guarded. Through our school system the health of the children is given more than adequate attention.

Springfield possesses every type of amusement and recreation offered in cities of its size—theaters, amusement parks, dancing salons, boating, canoeing, golfing, tennis—all of these are available. Supervised recreation for children is made possible through the very efficient work of the Springfield Park Department, through the agency of which are operated twenty-two public playgrounds, and more than fourteen hundred acres of public parks.

The National Recreation Exposition scheduled for May, 1932, is planned as the American and International "show window" of organized recreation. Endorsed by the United States Government, foreign nations, state, county and local governmental agencies, national organizations, leading educators and recreationists, it plans to present the most comprehensive displays, contests, competitions, pageants, and other demonstrations in the entire field of recreation.

Of outstanding importance is the Eastern States Exposition held annually in the third week of September on grounds owned by the Exposition, and bringing to the community upwards of three hundred thousand visitors seeking a display of latest agricultural equipment and other displays. Here is held the annual horse show, and to this exposition come the children from the ten eastern states to exhibit their handiwork. On these grounds, the State of Maine, and the Commonwealth of Massachusetts have each erected buildings in which are to be found excellent displays indicative of the quality and character of these two States.

CITY AS A CENTER

Springfield is the center to which tourists come over excellent highways, and through which they pass enroute to Maine, New Hampshire, Vermont, as well as to points of interest in Eastern Massachusetts.

Springfield is a trading center for a population estimated at 700,000. To the community are attracted these persons who seek adequate shopping facilities, excellent stores, fine restaurants and hotels.

The industrial prestige of the city has been developed as a result of the skill of its workers in mechanical trades. It is in a sense an agricultural base, for here are located the Eastern States Farmers' Exchange, the Hampden County Improvement League, and many other agencies working co-operatively for the development of agriculture throughout all of New England.

Springfield is the Western Gateway to New England, and, without question, the most easily accessible city in New England from points outside thereof. During 1931 more than 38,000 persons attended eighty-two conventions held in the city of Springfield. The Springfield Chamber of Commerce operates a Convention Bureau which actively solicits convention business and renders a maximum of co-operation to convention groups meeting in this city.

ADVANTAGES AND CLAIMS

In the last analysis, Springfield is the only city in the area between Boston, Albany and New York that has developed in a balanced way along the lines of beauty, education, finance, industry, mercantile and recreation. It is a community to which persons come to visit and remain to live and prosper.

CITY AS A SERVICE CENTER

The Springfield Chamber of Commerce for more than forty years has functioned in a capacity as a counsel and guide not only to citizens of the community, but to those from other cities seeking information or advice about the city. It is ready to co-operate in every practicable way to assure interested persons that they will receive adequate and reliable information concerning the community and its activities.

MUNICIPAL WATER WORKS.

The works are in charge of a Board of Water Commissioners consisting of Edwin A. Blodgett, chairman; James J. Shea and Mayor Dwight R. Winters, ex-officio; Howard M. King, supt.; Leland G. Carlton, asst. supt.; Walter E. Moore, clerk and water registrar; Elbert E. Lochridge, chief engineer. Office, [illegible] City Hall. Service Building and Yard, 71 Colton. Office hours 9 a.m. to 5 p.m.; Saturdays 9 a.m. to 12 m. Telephones: (applications and information) 3-2131; (work and trouble calls, day or night) 2-5188. The supply of water is taken from the Little River watershed, situated principally in the towns of Blandford, Granville and Russell, and by means of the following storage structures:

	Capacity in Gallons.
Borden Brook Reservoir (Impounding)	2,500,000,000
Cobble Mt. Reservoir (Impounding)	22,287,000,000
Intake Reservoir (diverting)	40,600,000
Sedimentation Basin (before filtering)	38,700,000
Provin Mountain Reservoir (old) (after filtering)	17,000,000
Provin Mt. Reservoir Addition (pure water) gals	12,280,000
Total	24,895,580,000

The former supply from impending reservoirs in Ludlow and Belchertown is also retained at present for towns of Ludlow and Wilbraham and for emergency uses, and, with its storage capacity of 1,434,218,000 gallons make an aggregate capacity of 26,329,798,000 gallons.

Range of pressure on mains for day and night, as follows: Main street level, maximum, 147 pounds, average, 140 pounds. Hill section level maximum 87 pounds, average 80 pounds.

The entire supply of city water to any premises is furnished by meter only and at meter rates; the necessary meters are installed by the water works at expense of the consumers for the initial cost of the meters and connections only.

The cost of ordinary care and repairs of all meters is borne by the water works; the cost of unusual repairs (necessitated by freezing, hot water, etc) due or attributable to any carelessness or neglect on the part of the consumer, will be charged to the consumer or owner.

METER RATES

(Subject to all rules and regulations).

For each 100 cubic feet (748 gallons) of water as registered or estimated for each independent premises* the rates shall be as follows:

For the first 5,000 cubic feet or less per quarter, at 22 cents per 100 cubic feet (about 30 cents per 1,000 gallons).

For all excess over the first 5,000 feet per quarter, at 5 cents per 100 cubic feet (about 7 cents per 1,000 gallons).

Where the aggregated total use for one independent premises* amounts to 750,000 cubic feet or more in any one quarter, the entire quantity will be charged at 5 cents per 100 cubic feet.

Subject to the following minimum quarterly charges:

(a) Single dwellings and double houses or blocks (of two or more ground-floor single-tenement sections), each tenement not less than $2.00 per quarter.

(b) Tenement houses, apartment blocks, etc., each tenement or apartment not less than $1.50 per quarter.

(c) Business blocks, manufactories, and other industrial plants elevators and motors, each bill for each independent premises, not less than $2.50 per quarter.

Special for Elevator Uses—Where the total or aggrevated quantity for operating one or more elevators on each independent premises* amounts to 33,000 cubic feet or more in any one quarter, and is metered and billed independently of all other uses, the entire quantity will be computed at 5 cents per 100 cubic feet; but no bill hereunder shall be rendered at less than $25.00 per quarter.

*Business and industrial buildings of more than one section, and adjoining or adjacent buildings, under one independent ownership as a plant (if not separated by a street or by any other buildings or premises under another ownership), may be considered as one independent premises, and as such, subject to the computing and billing of the foregoing meter rates. In all other cases the supply through each service and meter shall be computed and charged as separate and independent bills.

Each quarterly period will be computed and charged for independently of any other quarterly period and the rates therefore shall be paid accordingly.

When a meter from any cause fails to register the consumption of water, the quantity shall be estimated and the charge made based upon the registration by the meter when in order or upon the registration for a corresponding prior quarter or period.

Builders' Uses—Where water is to be used in the construction of ordinary framed buildings, or for small building operations where the use may be easily estimated, the meter installation may be temporarily deferred, as an accommodation to the owner or builder, until the completion and occupancy of the building, and a nominal estimated flat rate may be charged for builders' use of water to the owner of the property who will be held responsible for such use and the payment of such charge.

The Water Registrar and the Supt. shall determine all cases where the foregoing provisions may apply, and each case shall be considered independently of any other, but no such estimated charge shall be less than $1.00.

Miscellaneous and Temporary Uses—In certain cases of miscellaneous and temporary uses of city water, where the quantity used may be small, the charge for same may be estimated instead of being shown by meter, at the discretion of the Water Registrar and the Supt.

The Water Registrar shall have the right to require an advance deposit as security for the payment of water bills, when he shall consider it for the interest of the city to do so; such deposit not to exceed a year's minimum rate for the property to be supplied or a reasonable estimate ofr the probable annual amount of such bills.

All bills due the City on account of the Municipal water works shall be payable at the office of the city Collector, Room 137, Municipal Building, Court and Pynchon streets within twenty days after the same are rendered and become due.

Inquiries and claims for correction should be made at the office of the Water Registrar, Room 319, Municipal Building.

Delinquent water bills are a lien on real estate.

SCHOOL DEPARTMENT

School Board—Dwight R. Winter, Mayor, Chairman, ex-officio. At large, Chester S. McGown; Ward 1, Alfred M. Glickman; Ward 2, Theodore V. Quinlivan; Ward 3, Chester T. Neal; Ward 4, Chester W. Allen; Ward 5, Mrs. Gena R. Hickox; Ward 6, Roswell J. Powers; Ward 7, Julian R. Albee Ward 8, Mrs. Ruby C. Lanckton. Sec. Edwina A. Miller.

Have You a Message for Men?

LET the CITY DIRECTORY carry it home. Enlighten the public as to who you are, where you are and what you have to sell. The City Directory will keep your name before the public all the year 'round. Our copy writers will animate your advertising. And no man well supplied with mental gravity will differ from this: Perpetual Publicity Plus Personality Produces Patronage

The Price & Lee Company

POST OFFICE INFORMATION

Domestic Postage Rates

First Class—Letters, etc: 2 cents for each ounce or fraction of an ounce.

Post Cards: 1 cent each, within prescribed sizes.

Business Reply Cards: ordinary, 2 cents each; air mail, 6 cents each.

Business Reply Envelopes: ordinary or air mail: 1 cent in addition to regular postage. Apply at the Post Office for permit to mail.

Collect on Delivery Service is applicable to domestic registered and unregistered sealed mail of any class bearing postage at the first-class rate. Bills or statements of indebtedness are not mailable C. O. D. Such articles as are mailable (deeds, abstracts of title, insurance policies, bills of lading representing freight shipments, valuable light-weight merchandise etc.) must be based on bona fide orders for the contents or in conformity with agreements between senders and addressees.

Shortpaid Matter—First-class matter mailed shortpaid one rate (2c) shall be rated 2 cents due for collection upon delivery, and 3 cents due for each ounce or fraction of an ounce when shortpaid more than one rate.

Second Class—Newspapers and Periodicals: (Transient Rate). 1 cent each 2 ounces or fraction of 2 ounces, any weight or distance.

Third Class—Miscellaneous 1½ cents each 2 ounces or fraction of 2 ounces, up to and including 8 ounces. Books and Catalogs, 24 printed pages or more (including covers); Seeds, etc. 1 cent each 2 ounces or fraction of 2 ounces up to and including 8 ounces.

Bulk Third Class—Not less than either 20 pounds or 200 separately addressed identical pieces. Apply at the Post Office for permit to mail.

Miscellaneous—12 cents each pound or fraction, but not less than 1 cent per piece.

Books, Seeds, Plants, Etc.—8 cents each pound or fraction, but not less than 1 cent per piece. Matter mailed at bulk rates cannot be Registered or Insured or sent C. O. D. It must be separated by states and offices.

Fourth Class—See Parcel Post.

Foreign Postage Rates

Letters—2 cents for each ounce or fraction thereof, to the following countries: Cuba, Dominican Republic, Haiti, Mexico, Spain, all Central and South American countries (except British, Dutch, French Guiana and British Honduras).

2 cents for each ounce or fraction thereof, to Canada and Newfoundland (including Labrador).

Cards—1 cent each to the following countries: Cuba, Dominican Republic, Haiti, Mexico, Spain, all Central and South American countries (except Dutch, French Guiana and British Honduras).

2 cents to Canada and Newfoundland (including Labrador).

To all other Foreign Countries: Letters, 5 cents for the first ounce and 3 cents for each additional ounce or fraction thereof. Postal cards, 3 cents each.

Printed Matter, including newspapers, to all foreign countries, 1 cent for each 2 ounces or fraction of 2 ounces.

Parcels—Rates and conditions vary to different countries; call at Post Office.

Fourth Class—Parcel Post

Fourth Class—Includes printed matter, merchandise and all other matter weighing in excess of 8 ounces except first and second-class matter. Parcels limited to 100 inches, length and girth combined.
Weight limit 70 lbs.

Local Delivery	7c	1c ea. additional two lbs.
First and Second Zone	7c	1c ea. additional lb
Third Zone	8c	2c ea. additional lb.
Fourth Zone	8c	4c ea. additional lb.
Fifth Zone	9c	6c ea. additional lb.
Sixth Zone	10c	8c ea. additional lb.
Seventh Zone	12c	10c ea. additional lb.
Eighth Zone	13c	12c ea. additional lb.

Parcels Mailed on Rural Routes—two cents less per parcel than indicated in foregoing table for First, Second and Third Zones and one cent less for the remaining zones.

Library Books—First, Second and Third Zones, and State, 3c first pound or fraction, 1c each additional pound or fraction. Libraries, organizations or associations entitled to mail books at these rates should apply at the Post Office for permit.

Note.—On parcels for delivery in first and second zones where shortest practicable mail route is 300 miles or more, the rate is 8 cents for first pound and 2 cents for each additional pound.

AIR MAIL INFORMATION—5c for the first ounce or fraction thereof, and 10c for each additional ounce or fraction thereof. Air Mail can be insured, registered, sent C. O. D. or special delivery when the additional fees are prepaid. It may be deposited in any mail box, but must be endorsed "Via Air Mail" underneath the postage stamp immediately above the address. For further information call Post Office.

Fees in Addition to Regular Postage

SPECIAL DELIVERY

First Class Only—2 pounds or less 10c; Over 2, not over 10 pounds 20c; Over 10 pounds 25c.

Mail Other Than That of the First Class will be given the most expeditious handling and transportation practicable, and in addition receive immediate delivery at the office of address, upon payment of the following special-delivery fees:

2 pounds or less	15c
Over 2 pounds, but not over 10 pounds	25c

BUYERS' DIRECTORY

It's Practical Uses

To give permanence to paid-for publicity.

* * *

To detail more fully the products and service of industrial, commercial, financial and professional activities.

* * *

To form a quality background by the better use of type and paper.

* * *

To create a department of those in each community whose stability has built the foundation upon which progress has been attained. (The length of this advertising service automatically eliminates investments for space by those who question their ability to continue business activity.)

* * *

To safeguard the buyer by eliminating statements that mislead, or do not conform to business integrity.

* * *

Reference Advertising

HE who buys space in the City Directory buys advertising permanency. Every day thousands of business men all over the country search its classified sections to find where nationally advertised goods may be purchased. City Directory ("Reference") Advertising is the completing girder in the bridge between dealer and consumer, and should be part of all national and local campaigns.

COLUMBARIUM AND OFFICE

Visitors Welcome

All lots sold with perpetual care. One-half the amount received from the sale of lots reverts to the perpetual care fund. This has already reached a very substantial amount and assures care in perpetuity.

Cremation as a preparation for burial is preferred by many. Chapel available for service.

The columbarium is a repository for cremated remains in perpetuity. The cost is very reasonable.

Office, 171 Maple Street **Springfield, Mass.**

FORBES AND WALLACE INCORPORATED

Satisfaction Guaranteed

As old as the store itself—this Forbes & Wallace policy bears tremendous significance in the history of our store business.

Forbes & Wallace, Inc.

STEIGER'S

A Store of Specialty Shops

Even the casual shopper at Steiger's is impressed by its' air of easy sophistication and its' friendly interest in your needs. The various specialty shops for men, women and children make shopping easy and assure our customers of the newest in fashion . . . while numerous special services such as the Personal Shopping Bureau, the Dry Cleansing Service, the Beauty Salon, as well as the Hosiery and Shoe Repair Services are offered for your convenience.

THE HALL GALLERIES . . . .

A store within a store, complete on Steiger's fourth and fifth floors, housing one of New England's most exclusive collections of fine china, silver and crystal, of rare hand wrought pieces, distinctive occasional furniture, lamps and quaint period decorations . . . presenting a rich choice for you who buy wedding, engagement and anniversary gifts.

Superfluous Hair Removed by Electrolysis

OVER two score years ago, Dr. Mitchel, oculist, of St. Louis, evolved a method of using electricity for the permanent removal of ingrowing eyelashes. Soon after, his friend, Dr. Hardaway, conceived the idea of using this method for the removal of Superfluous Hair from the human face. Today, physicians everywhere, recommend this method as the only sure way of obtaining permanent relief from this annoying condition.

For forty years this office has employed *this* method—*the* method discovered by one, and employed by ALL the old masters, the single electric needle process, in painlessly disposing of these disquieting blemishes *for all time.*

Moles and Warts also safely removed.

You are invited to phone, write or call for complete information and demonstration sitting without obligation.

Manufacturing Department

SPRINGFIELD PRODUCTS are known the world over. The following pages are an index to the wide range and variety, the kind and quality of manufactured articles produced in this great and growing city. As a distributing center for Western New England and Eastern New York, Springfield offers exceptional advantages. A live, progressive Chamber of Commerce, a large market of skilled labor, and splendid railroad facilities—insure progress, prosperity and publicity to the City of Homes. When doing business with concerns advertised in the following pages, please mention the City Directory

OIL BURNER

Costs Less to Install
and Keeps on Costing Less!

The oil burner sensation of the day—*because* it has the first soft, multi-tongue flame—*because* it delivers greatest heat from every gallon of oil—*because* it cuts waste chimney heat 25% to 60%—*because* it actually does burn lower cost fuel oils and gives fullest heating efficiency from every fuel dollar—*because* it is the last word in automatic safety appliances—*because* it overcomes radio interference—and *because*, tho made to highest standards, it costs less than burners of usual quality. Compare with any oil burner—in engineering features, in heating efficiency, in low price.

The Sign Over Your Door

Is a good thing, isn't it? You would not think of doing business without it.

But it is only seen by those who pass your way.

If you could put a sign where everyone could see it would it interest you?

THE CITY DIRECTORY

Is where people look for you when they want to do business. You should make it easy for them to find you, by putting such information as a buyer wants, in the Directory properly indexed under all headings where he might look for you.

To be properly registered costs less than to be left out

SATISFACTION GUARANTEED ON EVERY PURCHASE

Every Store

should be in the Directory and the Directory in every store.

Besides its use to the keeper of the store, it is a convenience customers look for.

The store that offers an old, or no city directory, does not show its patrons a courtesy they will find elsewhere.

ADVERTISE IN THE ....CITY DIRECTORY
It is consulted every hour in the day by some one who is looking for your goods, and if you are not properly advertised the other fellow gets the business

ALPHABETICAL DIRECTORY

ITS PRACTICAL USE IS TO GIVE

Information—as to the complete name of each person over twenty years of age.

Information—as to the occupation of each person over twenty years of age.

Information—as to the address of each person over twenty years of age.

Information—as to the nature and activities of firms and partnerships.

Information—as to names of each member of firms and partnerships.

Information—as to the names of corporations, their nature and activity.

Information—as to the correct spelling of each and every name.

Information—as to whether a person is a "householder" (h) or "resides with" (r).

Information—as to what is the wife's name of each married man.

Information—as to what was the husband's name of each widow.

Information—as to the location of removals from city.

Information—as to the age and date of death of persons appearing in the preceding directory.

Information—as to those seeking prominence and prestige by display type.

—Finally—

Our Ideal

"If it has a name and location—it's here"
